DETAILED ACTION

Election/Restriction

1. Newly submitted claims 11-14 are directed to inventions that are independent or distinct from the invention originally claimed for the following reasons: claims 11-13 are distinct from combination the combination claims in that the combination does not require the particulars of the subcombination claims (see MPEP 806.05(a)), and the subcombination has separate utility, e.g. as a restraint device on a chair. Claim 14 is a method of using a restraint device also distinct from the originally presented claims (see MPEP 806.05(h)), for example in a chair outside a shopping cart.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 11-14 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Allowable Subject Matter

2. Claims 1-10 are allowed.

3. The following is an examiner's statement of reasons for allowance: the prior art neither anticipates nor makes obvious a child seat being suspended from a hinged side wall and operable to pivot up into the shopping cart as claimed, and specifically further including a safety element which is selectively height adjustable and releasably fixed in a set height position. Applicant's arguments presented in the paper filed January 12, 2004 were persuasive in that the curved ends of the restraint device of Hellstrom (U.S. Patent No. 4,819,988) would interfere with the cart

nesting arrangement, and also possibly with the space where a user may place groceries, and therefore would not be used in such an environment.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

4. This application is in condition for allowance except for the presence of claims 11-14 to an invention non-elected by original presentation. **Applicant is given ONE MONTH or THIRTY DAYS** from the date of this letter, whichever is longer, to cancel the noted claims or take other appropriate action (37 CFR 1.144). Failure to take action during this period will be treated as authorization to cancel the noted claims by Examiner's Amendment and pass the case to issue. Extensions of time under 37 CFR 1.136(a) will not be permitted since this application will be passed to issue.

The prosecution of this case is closed except for consideration of the above matter.
